transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Mont á s emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University ' s renowned Core Curriculum, one of America ' s last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia ' s Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Mont á s ' s life. In doing so, the book drives home what it ' s like to experience a liberal education—and why it can still remake lives.
